

COMMUNITY INVESTMENT VOLUNTEER

Community Investment volunteers recommend to the United Way Board of Directors how to best distribute the money raised in the annual campaign to advance the common good in the areas of Education, Income and Health. The total time commitment for Community Investment volunteers is approximately 20-25 hours over the course of a year.

Responsibilities:

Each volunteer is assigned to a vision council – Education, Income or Health. The vision councils will meet quarterly to learn about community issues, review data, and view solutions at a system-wide level. They will engage in frank and candid discussions about community issues and solutions, and review year-end reports of funded programs. Every other year, during the community investment process, panels will conduct agency reviews, using our online process as applicable. Together with the other members of the panel, the volunteer will:

1. Evaluate the effectiveness of agency program services in meeting community needs, based upon community impact and outcome measurement;
2. Review the financial capacity of the agencies to meet those needs;
3. Recommend an annual level of financial support for each program.

Qualifications:

1. Be a financial contributor to United Way of the Lakeshore (The Board of Directors believes that because it is the responsibility of community investment volunteers to invest contributions, those making this decision should also be contributors.)
2. Have an interest in the needs of the community.
3. Be willing to make a commitment to complete and participate in the entire review process (i.e. make every review meeting).
4. Be willing to disclose any current involvement with a United Way certified agency in order to be placed on an appropriate panel.
5. Be comfortable with computers and navigate United Way's online system as applicable (training provided).

Duties:

1. Approach the fund distribution / investment process as a collaborative, community-building effort.
2. Attend a United Way orientation/training session.
3. Participate in generating a list of questions for the agencies.
4. Visit agencies with team to address the team questions and concerns (approximately four hours).
5. Make notes after each visit to capture immediate impressions.
6. Participate in the final discussion to determine the funding recommendation for the programs of each agency.
7. Make recommendations on investment levels to Lakeshore Impact Council, which brings recommendations to the United Way Board of Directors.
8. Return materials to United Way of the Lakeshore and evaluate your experience.
9. Ensure that agency materials and panel discussions are kept confidential.

Investments by County:

Monies raised in a particular county are invested in only that county by donor-volunteers from that respective county.

Community Investment and Review Volunteer - Biographical Data Sheet

Name: _____ County: _____

Title: _____

Employer/Firm: _____

Union Affiliation (if applicable): _____
